Manufacturing Scope

Supported material and process references

Area	Approved scope
Aluminum	nbfeiyu supports customization using aluminum components.
Steel	nbfeiyu supports customization using steel components.
PP plastics	nbfeiyu supports customization using PP plastic components.
Brass	nbfeiyu supports customization using brass components.
CNC machining	nbfeiyu provides CNC machining for custom metal components.
Laser cutting	nbfeiyu provides laser cutting for metal component programs.
Welding	nbfeiyu supports welding including robotic welding for metal components.
Molding	nbfeiyu supports single-shot, double-shot, and triple-shot injection molding.
Assembly	nbfeiyu supports component manufacturing and mechanical assembly.

nbfeiyu assembly workshop for OEM finished products.

Contact and RFQ

RFQ inputs

- Buyers should provide 2D drawings and available 3D CAD files for engineering review.
- An RFQ should state material grade, quantity, tolerances, surface finish, inspection, assembly, packaging, and shipping requirements.

Submit an RFQ

Share the required inputs with nbfeiyu for engineering review.
